Dinis Raimundo da Silva

Date of birth: 10/04/2005 | **Place of birth:** Coimbra, Portugal | **Nationality:** Portuguese | **Gender:** Male |

Email address: dinisraimundosilva@gmail.com | **Address:** Portugal (Home)

ABOUT ME

Computer Science and Engineering student at Instituto Superior Técnico with strong interest in systems, low-level programming and cybersecurity. Experienced in C, Java and Python, with hands-on work in memory architecture simulation, rule-based engine design and ongoing security training. Focused on developing strong foundations in operating systems, networking and binary analysis, with the objective of pursuing a career in penetration testing.

EDUCATION AND TRAINING

01/09/2020 – 01/07/2023 Figueira da Foz, Portugal
DIPLOMA OF SECONDARY EDUCATION Escola Secundária Dr. Joaquim de Carvalho

Scientific and technological studies with a main focus on Mathematics and Physics, complemented by coursework in Languages, Biology and Informatics. Developed strong problem-solving skills, logical reasoning and foundational programming knowledge.

Level in EQF EQF level 4

01/09/2023 – CURRENT Lisbon, Portugal
BACHELOR'S DEGREE IN COMPUTER SCIENCE AND ENGINEERING Instituto Superior Técnico, University of Lisbon

Core coursework in Algorithms and Data Structures, Operating Systems, Distributed Systems, Databases, Computer Networks and Software Engineering, complemented by Mathematics and Physics. Developed strong analytical thinking, system design understanding and backend development skills.

Level in EQF EQF level 6

SKILLS

Programming

C | Java (computer programming) | gRPC | x86 | Prolog | Python (computer programming) | HTML/CSS | PostgreSQL

Tools

Wireshark | Git | Docker

Operating Systems

Ubuntu | Windows

LANGUAGE SKILLS

Mother tongue(s): **PORTUGUESE**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

14/10/2025 – 10/01/2026
Event-Reservation

Event reservation system demonstrating data structures and procedural programming using sockets for communication

Link https://github.com/subatom1c/Event-Reservation

15/09/2025 – 14/11/2025

TLB-Cache-Simulator

Implemented a Translation Lookaside Buffer (TLB) and cache simulator in C to model virtual-to-physical address translation and memory access behavior. Demonstrates understanding of CPU memory hierarchy and low-level systems architecture.

Link https://github.com/subatom1c/TLB-Cache-Simulator

28/05/2025 – 30/09/2025

Chess Engine (Java – Terminal-Based)

Designed and implemented a fully functional terminal-based chess engine in Java. Modeled board state, piece movement and complete rule enforcement, including move validation and special moves, using object-oriented design principles.

Link https://github.com/subatom1c/Chess

SECURITY TRAINING

Pwn College – Systems Security Training (Ongoing)

Completed modules covering Linux fundamentals, x86 architecture and program misuse concepts. Engaged in ongoing hands-on systems security training focused on binary exploitation and low-level programming within Linux environments.

WORK EXPERIENCE

SALES ASSISTANT – VELM – 16/05/2025 – 18/05/2025 – SANTARÉM, PORTUGAL

Working in a fast-paced environment under time pressure
Managing inventory and stock organization during a high-traffic event
Handling sales transactions and cash management
Direct customer interaction and product presentation

Attended twice
